Cross Reference Supplement

(Dealer use only)

All Cross References are based on the latest authorities' information available at press time. However, equipment manufacturers often change component suppliers without notice while continuing to use the same filter number. This change could result in a non-critical dimension becoming critical. Other filter manufacturers may use one filter to replace two of ours. Thus, when crossing from a non-original equipment filter number, a problem could develop. If a filter doesn't seal when installed, it should not be used. We cannot be responsible for misapplications.

NOTE: Always use the original (O.E.M.) part number to verify the correct filter application.

Please use this supplement only after consulting the latest available Baldwin catalogues or CD Rom first.

You can also visit the Baldwin web sites for up to date cross references.

If in doubt, contact the Baldwin Sales Office.

Cross Reference for:

AC Delco	Baldwin Supercessions	Cooper Australia	Donaldson Additions
Exxel	Fleetguard additions	FSA	Japan Filter
